5. Canada	Dried	(Sorghum)	Kernel; Seed
6. Canada	Dried	Corn (Zea mays)	Kernel; Seed

SPECIAL INSTRUCTIONS TO INSPECTORS

See permit conditions below

PERMIT CONDITIONS

Please note that the import requirements and approved commodities listed below are subject to change at any time during the duration of this permit. Please refer to the USDA-PPQ Port Program Manuals at http://www.aphis.usda.gov/import_export/plants/manuals/ports/index.shtml for the current import requirements for the commodities you are importing.

This permit authorizes the importation of the listed articles, under the conditions specified below. A copy of the first page of this permit must accompany all shipments authorized under this permit. For additional questions concerning this permit, call the PPQ automated phone system at:

1-877-770-5990.

This APHIS-issued import permit only covers compliance with APHIS regulations and requirements. Therefore, this APHIS permit for the commodity to be imported does not reduce or eliminate the permittee's legal duty and responsibility to likewise comply with all other Federal and State regulatory requirements applicable to the commodity to be imported.

Plant materials developed using genetic engineering regulated by 7 CFR part 340 must be imported with a valid APHIS 2000 Permit. Please call (301) 851-3935 or email Biotechquery@aphis.usda.gov for more information.

The importer or designee is responsible for confirming with CBP and PPQ at the destination port in advance of each shipment, that CBP and PPQ has the capacity to clear or handle permitted air, land, and maritime cargo shipments, including bulk, mail, and express consignment shipments.

The permittee is the legal importer of an article and is responsible for complying with the permit conditions. The permittee must be at least 18 years of age and have and maintain an address in the United States that is specified on the permit and be physically present during normal business

THIS PERMIT HAS BEEN APPROVED ELECTRONICALLY BY THE FOLLOWING PPQ HEADQUARTER OFFICIAL VIA EFILE	DATE
APHIS eFile Automatic Issued Permit Regulated by 7 CFR 319. 41	**10/23/2025**

WARNING: Any alteration, forgery or unauthorized use of this Federal Form is subject to civil penalties of up to $250,000 (7 U.S.C.s 7734(b)) or punishable by a fine of not more than $10,000, or imprisonment of not more than 5 years, or both (18 U.S.C.s 1001)

hours at that address during any periods when articles are being imported or moved interstate under the permit; or If another legal entity, maintain an address or business office in the United States with a designated individual for service of process; and serve as the contact for the purpose of communications associated with the movement of the regulated article for the duration of the permit.

Any person who violates the Plant Protection Act (PPA) of the United States, individuals or corporations who fail to comply with these conditions and authorizations, or who forge, counterfeit, or deface permits may be criminally or administratively prosecuted and found guilty of a misdemeanor which can result in penalties, a one-year prison term, or both. In addition, all current permits may be cancelled and future permit applications denied.

Shipment Details:

The shipment must be free from soil (unless authorized), prohibited plant materials and plant parts, other regulated foreign matter or debris, and quarantine living organisms such as parasitic plants, pathogens, insects, snails, and mites.

If the shipment requires treatment as a condition of entry, or if official personnel find that the shipment is contaminated with a quarantine plant pest, is commingled with prohibited plant material, or if required documentation is incomplete or missing, they will require the shipment and any other material associated with the shipment (i.e. pallets, packaging, conveyance) to be treated, reexported, or destroyed at the consignee's expense.

If treatment is required, shipments must be presented ready for treatment, as specified in the ACIR Treatment General Reference document. If cargo requiring fumigation is containerized, the cargo must be on pallets with at least two inches of space under the commodity and between the pallets, and have a minimum space of 18 inches above the commodity to allow for gas circulation. Shipments that are packaged in a way that impedes inspection or treatment (i.e, wrapped, coated, dipped, sprayed, or otherwise packaged in impermeable material) may be delayed inspection or refused entry.

All Wood Packing Materials (WPM) with the shipment are subject to treatment and IPPC Stamp requirements in accordance with 7CFR319.40-3.

Millet () (Seed) from Canada into All Ports

1. This commodity is subject to inspection at the port of entry and all general requirements of 7 CFR 319.24 and 7 CFR 319.41-5(a) .
